**Skin and hair conditions:** Grooming can expose pre-existing skin conditions you may not have been aware of because they were either dormant or covered by hair. Please let us know if your dog has any allergies but even the mildest shampoo may cause an allergic reaction resulting in redness or itching.

**Joint and bones:** Please let us know if your pet has any bone or muscle conditions. Grooming is such a physical process, some pets with bone or joint conditions may have those conditions irritated during the grooming process.

**Matting:** Heavy matting or knotting of the hair is both harmful to your pet skin health and painful to your pet because every time they move, the skin is pulled and tugged which results in red patches all the inflamed skin. Conditions such as hotspots, bacterial, and fungal infections can also grow under mats because some severe mats may actually be so tightly bound to the skin that it is difficult to get our de-mating tools or clippers in between the hair and skin which could results and injuring your pet with grooming took. Please be aware of this before leaving your pet in our care.

**Shave Down:** When you choose to shave your pet down completely, skin conditions can be exposed. Please be aware that their hair may not grow back in the same manner. After shave down some sensitive areas may become red or inflamed. After shave down some sensitive areas may become red or inflamed. After shave down we recommend to use sunscreen when outdoors to prevent sunburns.

**Senior Pets:** Seniors pets may experience more stress during the grooming process. This could result in pet fainting, having seizures, heart failure, stroke or even death. We're always extra gentle and take extra time with senior pets. You can also choose to wait for your pet in the store and see grooming process through our glass doors and window.

**Aggressive Pets:** Our grooming staff will use muzzle on your pet if they find your pet to be aggressive towards groomer. This is just a safety precaution to keep our staff and your pet safe.

**Puppy Haircuts:** We don't recommend giving your puppy a complete haircut before the age of 12 weeks. A puppy's hair is growing and forming. Clipping the body of the hair too early can result in damaging the hair texture or stun the growth. We recommend to gently introduce the grooming process with baths and nail clippings; before you move unto full grooms.

**Hyper and Overwhelmed Pets:** Even though our grooming staff is highly experienced and very patient, some pets are more skittish and wiggly than others. When grooming a dog or a cat there is always a risk of nicking or cutting the animal. Especially when they move a lot. We look forward to working with your pet regularly so they always look, feel and smell great!
